

Advanced Supply Chain Group ISO 9001 Quality Objectives

Company Vision:

Provide our customers with a competitive advantage at every point of the supply chain with faster, better, cheaper solutions delivered with innovation and agility.

- It is the company’s objective to constantly maintain a competitive and innovative edge for all customer service levels and to maintain an effective and efficient service. Achieved through using pre-agreed reporting resources and documented customer review meetings to be held regularly over the year.
- It is the company’s objective to stay in line with competition and to be eco-friendly conscious. Achieved through working towards having an all-electric fleet within the next decade.
- It is the company’s objective to reduce co2 emissions and sustain Euro VI standards. Achieved through ensuring all our drivers receive training in fuel-efficient driving techniques.
- It is the company’s objective to remain an environmentally sustainable and conscious business. Achieved through continual focus of recycling cardboard and plastic waste.
- It is the company’s objective to provide and maintain safe and healthy working conditions, equipment and safe systems of work for all employees. This is achieved through continual H&S meetings held throughout the year, focused inductions for all new starters and continual SSOW training.
- It is the company’s objective to collate and understand employee concerns and suggestions from over 60% of employees present at the time of the survey. achieved through a staff survey every two years.

Ben Balfour
Acting Business Operations Director

Advanced Supply Chain Ltd ISO 9001 Quality Policy

Company Vision:

Provide our customers with a competitive advantage at every point of the supply chain with faster, better, cheaper solutions delivered with innovation and agility

- The Company aims to develop and maintain an effective and efficient service that satisfies the needs of the most exacting client/customer in a timely and cost-effective manner. This is achieved by consistently conforming to applicable requirements, policies, procedures, and regular contact/updates with our customers throughout the year.
- It is the policy of the company to provide and maintain safe and healthy working conditions, equipment and safe systems of work for all employees.
- It is company policy and commitment to review the Quality Management System to ensure ASCG continually improve the effectiveness, and where necessary to implement required changes. This is achieved through regular QMS discussions with senior management and yearly audits of the QMS.
- It is the company policy to emphasize their continual environmental sustainability.

It is the company policy to be aware of our carbon footprint and reduce emissions to meet Euro VI standards.

It is the company policy to keep innovated ideas moving forward within the logistic industry. This is achieved through keeping a close eye on industry developments such as electric vehicles.
